

A	Good morning Ms Cheng, teachers and fellow schoolmates. We are the representatives from the SA.
B	I'm Belle.
CC	I'm Chloe.
CY	And I'm Cherry.
B	Leadership skills is one of the most essential skills to be mastered. On a smaller scale, poor leadership in a group project may be reflected by bad grades and the presence of free-riders but on a grander scale, a society led by poor leadership may translate into a disruption of social order, social cleavage as well as political turmoil. Therefore, today, we would like to explore leader's responsibility and how to be a good leader.
CC	Good leaders motivates and inspires. "If your actions inspire others to dream more, learn more, do more and become more, you are a leader." This quotation clearly shows the essence of true leadership. Good leaders became great leaders because of their actions. Their action determines how they influence their followers. The power of a leader doesn't come from authority or control over everything, it comes from being inspirational.
CY	A leader should lead by example. Leaders are able to set good priorities — they have the same high performance expectations as they set for themselves. Leaders stick to the rules and honour agreements that have been made. Leaders hold accountable for all their actions and words.
B	Leaders should facilitate teamwork. Leadership is not about the blame game or who is the best and who is not. If your team members fail to do their work properly, do not scold, yell, or blame. Effective leaders focus on the good and help your teammates to improve by letting them know that you have faith in their abilities.
CC	After listening to so many responsibilities of good leaders, then how to be a good leader in order to fully fulfill these responsibilities?
CY	Good leaders are open-minded and flexible. They are willing to listen to the group when making decisions. Sometimes the way things have been done are outdated or could be done in a better way, good leaders will accept the new ideas and to make changes according to. Good leaders are receptive to opinions on their performance and this helps them improve in the future as they have better ability

	to incorporate new information and different points of view so to make a better decision.
B	Until you clearly communicate your vision to your team and tell them the strategy to achieve the goal, it will be very difficult for you to get the results you want. Simply put, if you are unable to communicate your message effectively to your team, you can never be a good leader. A good communicator can be a good leader. Words have the power to motivate people and make them do the unthinkable. If you use them effectively, you can also achieve better results
CC	These may sound complicated and far from us. However, there are in fact many chances for us to practise and nurture our leadership skills right here, in the campus. Class Monitress, House Prefects, Subject leaders these posts are great opportunities for us to exercise leadership skills, be attentive and seize every chance are also qualities of a good leader.
CY	As the student leaders of our school, SA promises to be the communicative bridge between students and the school, provides quality service as well as serves the school whole-heartedly.
A	Thank you.
